

AIJ Consulting Engineers & Infrastructure Managers (AIJCEIM) is a recently established 100% Namibian owned company.

AIJCEIM is a multi-disciplinary consulting engineering and advisory firm that offers independent expertise in the services and built environment. Our goal is to work with Clients through every stage of the development process and providing managed solutions for Clients investing in infrastructure, property and construction.

Through our Industrial Engineering capacity, we also aim to partner with Clients who seek to improve and optimize their business and operation environments.

ABOUT US

- We are a multi-disciplinary consulting engineering and advisory firm, registered in Namibia with HQ in Windhoek.
- We are affiliated to AIJPCC and RCE Consultants Namibia.
- AIJCEIM specialises in planning, design and management of municipal and rural infrastructure, buildings, railway, port and associated consulting engineering and advisory projects.
- Our built environment infrastructure management and advisory expertise encompasses Development & Project Management.
- AIJCEIM helps organizations optimize business processes and operations with a view to create an efficient and effective operational environment as well as to maximise value creation for Clients.

OUR VISION

To be Africa's premier infrastructure multi-disciplinary consulting engineering firm that dictates the narrative on infrastructure delivery.

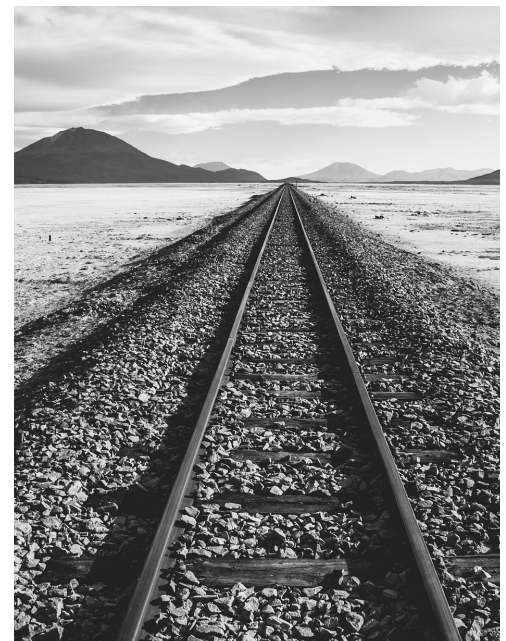

OUR MISSION

- To become the largest engineering and advisory firm in the region.
- To be a leader of the delivery of infrastructure across the region required to bring the African Continental Free Trade Area (AfCFTA) to life.

<ul style="list-style-type: none"> • Civil; • Structural; • M&E • Railways; • Ports & Harbours; • Water; • Hydrology; • Wet Services; • Fire; • Value Engineering; • Industrial Engineering. 	<ul style="list-style-type: none"> • Initiation; • Assistance with Sourcing Project Funding; • Property audit to identify key development issues; • Feasibility Studies & Project Appraisals; • Development of business strategies and plans. 	<ul style="list-style-type: none"> • Management of the planning, design and delivery of best in class mixed-use projects; • Technical Co-ordination; • Relationship management; • Value Management; • Risk analysis; • PMBOK.

HIGHLIGHTS

AIJCEIM has completed the planning, design and execution of numerous infrastructure projects. We pride ourselves in the fact that many of these projects have been implemented or are in the process of being implemented. Selected key highlights include:

- **Ongos Valley:** Internal Bulk Infrastructure & Structures;
- **Dundee Precious Metals Tsumeb (DPMT):** Upgrading of 6km railway siding;
- **Lodestone Namibia (Pty) Ltd:** Development of various pit to port logistic solutions and systems simulations;
- **Eris Properties Namibia (Pty) Ltd:** Re-modelling of TransNamib rail infrastructure footprint at Swakopmund to accommodate new Bahnhof Square Mall Development;
- **Namibian Ports Authority (Namport):** Analysis and recommendations of structural capacity of port handling equipment;
- **First Capital:** Project Delivery Model for 2400 houses across Namibia.
