

WHO ARE WE? - OVERVIEW

- ✓ TeSik Group is a Namibian corporation active in manufacturing, construction, renewable energy, engineering and project management.
- ✓ TeSik holds majority stake in ORE through M-uuZilo Trading Enterprise (MTE).

Omukwa Renewable Energy (ORE) is a newly established organization targeting Namibia & SADC for the development of REN initiatives.

WHO ARE WE? – OMUKWA JOINT EXPERIENCE

Our EXPERIENCE:

- We operate as an IPP;
- Operating in the Namibian REN market since 2016;
- Currently developing a 12.51MWp PV plant in Katima Mulilo (NORED);
- And an additional 50MW pipeline and growing;
- Successfully designed & supervised several multi-million dollar infrastructure projects.

We have proven experience of implemented infrastructure projects

WHO ARE WE? – OMUKWA JOINT COMPETENCIES

Our COMPETENCIES:

- Successful PPA and DCA takeoff towards investment (IPP) in REN projects;
- Design of large infrastructure and urban renewal projects;
- Development of complex construction projects;
- Construction Supervision & Contract Administration;
- Project Management;

ORE has full range of competencies to develop & execute complex investment initiatives from early stages to implementation & is gearing up to capacitate itself in the running of operations.

WHO ARE WE? – OMUKWA TARGET MARKETS

Our OBJECTIVES:

- **Participating in public and private bids** for Wind, PV, Biomass, Mini-Hydro, Storage Systems for REN plants, stand-alone storage systems and other related sectors such as Green Hydrogen targeting the development of a 3GW energy asset portfolio over 15 years;
- **Negotiating direct bilateral off-taking contracts** and other kind of commercial partnerships with private companies for the supply of renewable energy (i.e. MSB, wheeling);
- Explore various power supply opportunities, with an **IPP scheme, targeting international Clients** from the Southern African Development Community (SADC) through the South African Power Pool (SAPP) and Energy Traders;
- **Development projects (greenfield or brownfield)** of other types of infrastructure with similar financial profiles.
- **Generate employment opportunities** for migration of labour force and/or generation of new jobs both in REN & other infrastructure sectors.
- Generate a **positive and sustainable financial & social return** in its direct investments.

ORE seeks to penetrate private & public REN projects on all levels in Namibia & SADC.
